Student: Simon Kong

Project Due date: 10/17/2021

## Algorithm Steps

#### Main

```
step 0: inFile ← open the input file
        RFprettyPrintFile, labelFile, propertyFile ← open from args[]
        numRows, numCols, minVal, maxVal ← read from inFile
        dynamically allocate zeroFramedAry.
        newLabel \leftarrow 0
step 1: zero2D (zeroFramedAry)
step 2: loadImage (inFile, zeroFramedAry)
step 3: Connectness ← ask user from console
step 4: if connectness == 4
               connect4Pass1 (...)
               imgReformat (zeroFramedAry, RFprettyPrintFile)
               printEQAry (newLabel, RFprettyPrintFile)
                        // print the EQAry up to newLable with proper caption
                Connect4Pass2 (...)
                imgReformat (zeroFramedAry, RFprettyPrintFile)
                printEQAry (newLabel, RFprettyPrintFile)
                        // print the EQAry up to newLabel with proper caption
step 5: if connectness == 8
                connect8Pass1 (...)
                imgReformat (zeroFramedAry, RFprettyPrintFile)
                printEQAry (newLabel, RFprettyPrintFile)
                        // print the EQAry up to newLable with proper caption
                Connect8Pass2 (...)
                imgReformat (zeroFramedAry, RFprettyPrintFile)
                printEQAry (newLabel, RFprettyPrintFile)
                        // print the EQAry up to newLable with proper caption
step 6: trueNumCC ← manageEQAry (EQAry, newLabel)
                printEQAry (newLabel, RFprettyPrintFile)
                // print the EQAry up to newLabel with proper caption
step 7: connectPass3 (...)
step 8: imgReformat (zeroFramedAry, RFprettyPrintFile)
step 9: printEQAry (newLable, RFprettyPrintFile)
                // print the EQAry up to newLabel with proper caption
step 10: output numRows, numCols, newMin, newMax to labelFile
step 11: printImg (labelFile) // Output the result of pass3 inside of zeroFramedAry
step 12: printCCproperty (propertyFile) // print cc properties to propertyFile
step 13: drawBoxes(zeroFramedAry, CCproperty)
step 14: imgReformat (zeroFramedAry, RFprettyPrintFile)
step 15: print trueNumCC to RFprettyPrintFile with proper caption
step 16: close all files
```
